

Litezupp LAUX-8M-x

Magnetic mount 3rd brake light

The Auxiliary light can be connected as an additional brake light and is designed to fit on the rear metallic valance of your car. The light housing is ABS plastic with red translucent lens, an 8 LED strip with CREE LEDs. No Polarity operation so it can be used in negative or positive ground systems. Magnetic attachment is with two 60 lb. magnets. The bottom is felt covered, so no metal to metal contact. Approx. 5 ft. of two conductor wire for connection. Trunk or rear valance mounting. Easy removal for quick storage.

Options:

LAUX-8M-1 – 1.5" tall

LAUX-8M-3 – 3" tall
